SKILLS

Programming: C, C++, Java, JavaScript, Python,
HTML, CSS, SQL

Frameworks/Libraries: React, Flask, Node.js

Tools & Platforms: IntelliJ, Vscode, Cursor

COURSEWORK

Integrating Generative AI for Intelligent Healthcare Assistance: A Case Study on

HealMate AI - Paper Presentation at 2nd
International Conference on Data Analytics and
Intelligence Computing (ICDAIC'25), organized by
Velammal Institute of Technology,
Chennai

LANGUAGES

- ENGLISH
- TAMIL
- HINDI

EXPERIENCE

COGTIS TECHNOLOGIES | Software Testing
Intern 06/2024 - 07/2024 | (Remote)

- Acquired foundational knowledge in Software Testing.
- Developed Quality-checking skills through hands-on projects and tasks.
- Gained practical experience by using Selenium WebDriver for Automation testing.

CORIZO | Web-Development Intern
07/2024 - 09/2024 | (Remote)

- provided hands-on exposure to key aspects of web development.
- Familiarized with foundational web development tech stack such as HTML, CSS and JavaScript combined with robust frameworks such as React and Node.JS
- Participated actively in creating and enhancing a CRUD focused project leading the team.

INTERNPE | AI/ML Intern
06/2024 - 07/2024 | (Remote)

- Gained practical experience by working on real-world projects such as Diabetes Prediction, Car Price Prediction, IPL Winning Team Prediction, and Movie Rating Prediction using Python and relevant ML libraries
- Actively participated in data preprocessing, model training, evaluation, and improvement, while also enhancing collaboration and problem-solving skills through project-based learning.

PROJECTS

- **CODE ARENA:** A real-time coding challenge platform with secure Docker-based code execution. Users can create and join challenges, write code in multiple languages, test against cases, and compete live.
 - Tech Stack: MongoDB, Express JS, React, NodeJS and Docker
- **TESTFORGE-AI:** A Flask-based web app that generates manual test cases and automation scripts from project requirements through text based entry or SRS document. Supports multiple input types, frameworks, and includes responsive dark-mode UI.
 - Tech Stack: Python, Flask and Javascript
- **THINKFIRST-AI:** An AI learning assistant designed to promote independent problem-solving. Offers guidance and hints while avoiding spoon-feeding answers, with final answers revealed only on request
 - Tech Stack: Python Flask and Javascript
